

CURRENT POSITION 👤 Student	TARGET GOAL 🏠 Get a Job (SDE / Web Dev)	TIMELINE 🕒 3 Months	EXISTING SKILLS Web Dev + DSA
-------------------------------	--	------------------------	----------------------------------

📊 Skill Gap Analysis

CATEGORY	HAVE	GAP — NEEDED FOR JOB-READINESS		
Technical	Web Development	Advanced DSA (Graphs/DP)	System Design Basics	Git/GitHub Workflow
	DSA Basics	Deployment (Vercel/AWS)		
Project Depth	Tutorials/Basics	2-3 Full-Stack Portfolio Projects	1 Group/Open-Source Project	
Job Prep	Coding Foundation	Resume/ATS Optimization	Mock Interviews	LinkedIn Presence

🔗 Learning Plan (Priority Order)

🏠 Suggested Projects

WK	FOCUS AREA	
1-2	DSA: Arrays, Strings, HashMaps, Recursion (daily 2 problems)	1. Full-Stack SaaS Clone Auth + payments-style CRUD app (MERN/Next.js), deployed live.
3-4	DSA: Trees, Graphs, DP + Git/GitHub mastery	2. DSA Visualizer Tool Web app visualizing sorting/graph algorithms — shows DSA + Web Dev fusion.
5-7	Advanced Web Dev: Auth, REST APIs, Databases (MongoDB/SQL)	3. Open-Source Contribution 3-5 merged PRs on a public GitHub repo for real-world credibility.
8-9	System Design basics + Deployment (Vercel/Render/AWS)	
10-11	Mock interviews + Resume/LinkedIn polish	
12	Applications + Referrals blitz	

🌐 Networking Strategy

📅 Monthly Milestones

→ Post weekly build-in-public updates on LinkedIn/X	MONTH	MILESTONE
→ Join 2-3 Discord/Slack dev communities, engage daily	M1	150+ DSA problems solved, Git fluent, Project 1 started
→ Reach out to 5 alumni/engineers weekly for referrals	M2	2 projects deployed live, GitHub profile polished, 3 OSS PRs
→ Attend 1 hackathon or tech meetup this quarter	M3	Resume finalized, 10+ mocks done, 50+ applications sent
→ Optimize LinkedIn headline + banner for recruiters		

🔪 Immediate Next Actions (This Week)

1. Set up LeetCode + GitHub streak tracker; solve 2 problems today

2. Pick Project 1 idea and scaffold the repo

3. Revamp LinkedIn headline: "Aspiring SDE | Web Dev & DSA"

4. Join 1 dev community and introduce yourself
